

KVH TracVision Satellite TV Antennas Chosen by Fleetwood for 2003 Model RVs

June 10, 2002

Selection of TracVision by Leading RV Manufacturer Represents Potential Sale of Several Thousand Additional Antennas

MIDDLETOWN, R.I., Jun 10, 2002 /PRNewswire-FirstCall via COMTEX/ -- KVH Industries (Nasdaq: KVHI) announced today that Fleetwood Enterprises, one of the largest RV manufacturers in the United States, will be offering the KVH TracVision(R) line of satellite TV antennas as an option on 2003 model year motor homes. Fleetwood RV's selection of TracVision satellite TV equipment as an option for its customers further solidifies KVH's position as the world's premier manufacturer of mobile satellite TV systems.

"Fleetwood vehicles are renowned for their quality and reliability, and we are very proud that our TracVision antennas have been chosen as optional equipment for the 2003 model year motor homes," said Ian Palmer, vice president of satellite sales. "Satellite TV is one of the most popular consumer products among RV owners, and the award-winning TracVision product line has become the antenna of choice among both consumers and leaders in the RV industry like Fleetwood. Subject to consumer demand, this opportunity represents the potential sale of several thousand additional TracVision units in the next 12 months."

To meet Fleetwood's high-volume production needs, KVH redesigned its award-winning TracVision LM and SA satellite TV antennas, creating two new models - TracVision LF, a fully stabilized in-motion system; and TracVision SF, a stationary, self-acquiring system for use when the vehicle is parked. These systems provide access to more than 300 channels of digital TV programming and digital-quality music via the DIRECTV(R) and DISH Network(TM) services. TracVision LF and SF antennas are designed for factory installation and will be installed aboard motor homes built at Fleetwood's manufacturing facilities in California, Indiana, and Pennsylvania.

"The outstanding quality, reliability, and service offered by KVH Industries were instrumental in our selection of the TracVision systems for our family of recreational vehicles," remarked Bob Thompson, vice president of motor home operations, Fleetwood RV. "The TracVision LF and SF satellite TV systems will provide our customers with the innovative design and exciting features they expect when purchasing a Fleetwood RV motor home."

Fleetwood Enterprises, Inc. (NYSE: FLE) is the nation's leading manufacturer of recreational vehicles and a leading producer and retailer of manufactured housing. Fleetwood's recreational vehicle line includes 27 brands of motor homes, travel trailers, fifth wheels, truck campers, and folding trailers. Fleetwood RV products are distributed through a nationwide network of more than 1,000 dealers. Established in 1950, Fleetwood operates 40 North American recreational vehicle and manufactured housing facilities and employs approximately 14,000 associates.
