# **KVH Industries Reports First Quarter Results**

- Revenue of \$41.3 million for the first quarter, up 12% from a year ago
- Net loss of \$1.4 million, net loss per share of \$0.09, non-GAAP net income of \$0.9 million, and non-GAAP EPS of \$0.06

**MIDDLETOWN, RI, May 7, 2015** -- KVH Industries, Inc., (Nasdaq: KVHI) reported financial results for the first quarter ended March 31, 2015 today. The company will hold a conference call to discuss these results at 10:30 a.m. ET today, which can be accessed at investors.kvh.com. Following the call, a replay of the webcast will be available through the company's website.

#### Highlights

- Continued growth in mini-VSAT Broadbandsm Q1 airtime revenue, up 12% year-over-year
- Including the impact of Videotel, strong year-over-year growth in subscription-based service revenue, which represented 61% of total revenue in Q1, up from 47% a year ago
- Gross profit margin of 43% compared to 39% a year ago
- Non-GAAP adjusted EBITDA in the first quarter of \$2.8 million up from \$1.1 million in the comparable quarter last year

"Overall we are very pleased with our progress in the first quarter. In particular, we are excited about the reception given to our new IP-MobileCast<sup>™</sup> service and are already seeing the benefit of having an integrated service and content offering," said Martin Kits van Heyningen, KVH's chief executive officer. "We believe that the availability of IP-MobileCast played a major role in our ability to win recent larger fleet deals for which we might not have been as competitive in the past. Although the daily usage on metered plans related to the offshore oil and gas services was down significantly during the quarter, other sectors, like commercial shipping and leisure, remain strong. Our VSAT pipeline and backlog are robust."

#### **First Quarter Financial Summary**

Revenue was \$41.3 million for the first quarter, an increase of 12% compared to the first quarter of 2014. First quarter product revenues of \$15.4 million were 15% lower than the prior year quarter, primarily driven by a 31% year-over-year decline in fiber optic gyro revenues. Service revenues in the first quarter were \$25.9 million, an increase of 37% compared to the first quarter of 2014, and includes \$5.9 million of revenues from our July 2014 acquisition of Videotel<sup>™</sup>. Airtime service revenues, which include mini-VSAT Broadband airtime revenues, were up 12% year-over-year. Content and services revenues, which include our entertainment and new e-Learning and safety content, were up 112% in the first quarter of 2015 compared to the first quarter of 2014, including Videotel revenues.

For the first quarter, net loss on a GAAP basis was \$1.4 million, or \$0.09 per share, while non-GAAP net income was \$0.9 million or \$0.06 per diluted share. During the same period last year, the company reported a GAAP net loss of \$1.1 million, or \$0.07 per share, and a non-GAAP net loss of \$0.0 million, or \$0.00 per diluted share.

Non-GAAP adjusted EBITDA was \$2.8 million for the first quarter of 2015 compared to \$1.1 million in the prior year quarter. Included in non-GAAP adjusted EBITDA was \$1.4 million and \$0.5 million related to the amortization of intangible assets for the three months ended March 31, 2015 and 2014, respectively. The acquisition of Videotel on July 2, 2014 generated the year-over-year increase in intangibles amortization.

#### Second Quarter 2015 and Full Year 2015 Outlook

Overall KVH expects continued growth and improving profitability as we progress throughout the year. We expect solid growth in our marine VSAT business while we expect our defense business to remain flat. A portion of our revenues and costs are denominated in pounds sterling, and there have recently been significant fluctuations in currency movements relative to the U.S. dollar. Significant changes to currency exchange rates, particularly between the U.S. dollar and pounds sterling, may have a material impact on our earnings. For the full year, we are reaffirming our previous guidance, as set out below:

- Revenue for the full year is projected to be \$190 million to \$210 million.
- For the full year, net income is projected to be in the range of \$4.6 million to \$6.2 million with GAAP EPS projected to be in the range of \$0.30-\$0.40. Non-GAAP adjusted EBITDA is projected to be \$25.0 million to \$27.5 million with non-GAAP diluted EPS for the full year projected to be in the range of \$0.81 to \$0.91.
- Revenue for the second quarter is projected to be in the range of \$41 million to \$45 million.
- For the second quarter, net loss is projected to be in the range of \$1.2 million to \$0.5 million with GAAP net loss per share to be in the range of \$0.08 to \$0.03. Non-GAAP adjusted EBITDA is projected to be \$3.0 million to \$3.7 million with non-GAAP diluted EPS for the second quarter projected to be in the range of \$0.05 to \$0.10.

#### **Other Recent Announcements**

- We introduced our new TracVision<sup>®</sup> TV8 maritime satellite TV antenna system, which is designed to provide tracking, reception and extended coverage needs for yachts and merchant vessels.
- A new industry report by COMSYS, a market analysis firm, concluded that KVH's mini-VSAT Broadband service has nearly double the number of vessels in service versus that of our nearest competitor.
- We added additional capacity for our satellite network in the Asia-Pacific region, the Pacific Northwest, the eastern coast of Canada, and the U.S.

Please review the corresponding press releases for more details regarding these developments.

#### **Conference Call Details**

KVH Industries will host a conference call today at 10:30 a.m. ET through the company's website. The conference call can be accessed at investors.kvh.com and listeners are welcome to submit questions pertaining to the earnings release and conference call to ir@kvh.com. The audio archive and an MP3 podcast will also be available on the company website within three hours of the completion of the call.

#### **Non-GAAP Financial Measures**

Provided in this release is non-GAAP financial information, including non-GAAP net income, non-GAAP diluted EPS, and non-GAAP adjusted EBITDA, as a supplement to the condensed financial statements, which are prepared in accordance with generally accepted accounting principles ("GAAP"). Management uses these non-GAAP financial measures internally in analyzing financial results to assess operational performance and liquidity. The presentation of this financial information is not intended to be considered in isolation or as a substitute for the financial information prepared in accordance with GAAP. KVH believes that both management and investors benefit from referring to these non-GAAP financial measures in assessing performance and when planning, forecasting, and analyzing future periods. KVH believes these non-GAAP financial measures are useful to investors because they allow for greater transparency with respect to key financial metrics used in making operating decisions and because its investors and analysts use them to help assess the health of its business.

Some limitations of non-GAAP adjusted EBITDA, non-GAAP net income (loss), and non-GAAP diluted EPS, include the following:

- Non-GAAP adjusted EBITDA represents net (loss) income before interest income, interest expense, taxes, depreciation, amortization, stock-based compensation, acquisition-related expenses, and adjustments resulting from the application of purchase accounting in connection with acquisitions.
- Non-GAAP net income (loss) and diluted EPS exclude acquisition-related expenses, adjustments resulting from the application of
  purchase accounting in connection with acquisitions, adjustments related to stock-based compensation and intangible amortization, all
  net of tax, and also excludes any discrete tax items.

Other companies, including companies in KVH's industry, may calculate these non-GAAP financial measures differently or not at all, which will reduce their usefulness as a comparative measure.

Because of these limitations, investors should consider these non-GAAP financial measures together with other financial performance measures, including net income, diluted net income (loss) per share, and KVH's other financial results presented in accordance with GAAP. See the GAAP to non-GAAP reconciliations below for further details.

This press release contains forward-looking statements that involve risks and uncertainties. For example, forward-looking statements include statements regarding our financial goals for future periods, our anticipated revenue sales pipeline, backlog, competitive positioning, profitability, and product orders. The actual results could differ materially from the statements made in this press release. Factors that might cause these differences include, but are not limited to: the impact of extended economic weakness and high fuel prices on the sale and use of motor vehicles and marine vessels; the need to increase sales of the TracPhone® V-IP series products and related services to improve airtime gross margins; the need for, or delays in, qualification of products to customer or regulatory standards; unanticipated declines or changes in customer demand, due to economic, seasonal, and other factors, particularly with respect to the TracPhone V-IP series, including with respect to new pricing models; recent increases in airtime termination rates and lower unit sales in our mobile business; increased price and service competition in the mobile communications market; potential reduced sales to companies in or dependent upon the oil industry as a result of declining oil prices; exposure for potential intellectual property infringement; continued substantial fluctuations in military sales, including to foreign customers; unanticipated expenses associated with the launch of the IP-MobileCast service; the unpredictability of defense budget priorities as well as the order timing, purchasing schedules, and priorities for defense products, including possible order cancellations; the uncertain impact of potential budget cuts by government customers; potential litigation expenses; fluctuations in interest rates; potential changes in tax and accounting requirements or assessments, including management's assessment of the probability and effect of future events; stock price volatility; and currency fluctuations, export restrictions, delays in procuring export licenses, and other international risks. These and other factors are discussed in more detail in KVH's Annual Report on Form 10-K filed with the Securities and Exchange Commission on March 17, 2015. Copies are available through its Investor Relations department and website, http://investors.kvh.com. KVH does not assume any obligation to update its forward-looking statements to reflect new information and developments.
